

At Home Activities

Note from Student Teacher

Dear Parents,

Thank you for giving me the opportunity to work with your child over the last couple months. I am in the MW am and Friday am classes. I have found activities for ideas to do at home during this long break with your child.

Stay Healthy!

-Sam Christensen, ATCC Practicum Student

Color Scavenger hunt

Take a piece of paper and pick at least 5 colors. Make a square of each color on the piece of paper. Allow your child to find an object in the house that matches the color.

Fine Motor Activity with Clothespins

Clothespins are a material to help child's fine motor skills. The following are ideas:

- Letter or shape match: Write a letter/shape on the clothes pin and on a piece of paper and have the child pinch the clothes pin to the match.
- Cotton balls to the cup: Will need a cup, cotton balls, and clothespin. Use the clothespin to pick up the cotton balls to place in a cup.

Walk the line

Using painters tape make different lines. Having the children try to balance on the line. For example, straight lines, zig zag lines, etc.

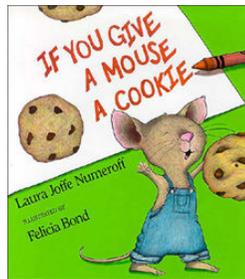

Water Sensory Bin

Fill a bin with water and add materials for the children to explore. For example, sponges, cups, and much more.

Reading Children's books

Children love to look at books especially when adults get to read the story to them.

Recycle materials

It is always fun to view what children make with different materials and using their creativity. If you have any toilet paper tubes, newspaper, containers, etc. Allowing them to make their own creative project.

Fingerplays (Five Speckled Frogs)

Five green frogs sitting on a log. *Hold up 5 fingers*

Eating some most delicious bugs, Yum Yum!

One jumped into the pool where it was nice and cool

Then there were four green speckled frogs, *Hold up 4 fingers*

*Continue to repeat until no frogs left and count down with your fingers.
